Dear Rick:

Thank you for forwarding the above referenced reports for 1982. The only comment I have at this time is that the Ivy Mine report states that no reclamation work was performed during the year. Referring back to letters from Atlas dated May 21, 1982 and July 16, 1982 certain "interim reclamation" work was performed. I think that this ought to be reflected on the Operations Reports. Therefore I am requesting you resubmit the Ivy report with your best estimate of the acreage affected. I hope you agree with this procedure as I'm sure the 1983 reports will reflect more of these kinds of changes.

One additional note, an error was made on the letter of January 26, 1983 to Richard Blubaugh. On the second page, item 2 under Radium King should read . . . at the central east channel surface facilities area. I trust you will note the correction.

Sincerely,

THOMAS N. TETTING
